

Making Learning Fun and Ecological

Lesson: The concept of the eco-social enterprise

Activity:

Give 3 examples of social enterprises in your country

Lead In:

Online/Class

Duration:

20-25 minutes

Aim:

1. Conduct research on Social Innovation
2. Find the concept more tangible through local examples

2. Be inspired by some examples of (eco-)social innovation by gathering some basic information about them.

Type of activity:

Research

Group number:

Work individually or in groups, each student/team should present their work to the class

Recommended age: 15-29

Instructions:

For educator:

Introductory part:

1. Share the presentation "Examples of Social Enterprises". Or examples of your own preference.
2. Give some time to the students to conduct basic research on the internet to find local examples of SE in their countries.
3. Each team/student should present their examples in class.

For the user/ interested participants:

1. Follow the presentation on Social Enterprises.
2. Conduct basic research on the internet to find examples of SE in your country.
3. Present them in class; get inspired.
