TO CLEAN AIR

It would be great to play outside. But my mother won't let me go, she says the air is poisonous and harmful to health, especially for children.

Put away the computer and video games. Come play in the street, get the ball, ride the bike.

Do you know! Your mother is right. Well, polluted air is not only harmful to children, but also to people. It is also harmful to plants and animals. Polluted air also creates acid rain, which destroys all living things, including buildings, monuments....

Cars and factories also create noise. This is terrible!!!

It's very easy!

It's time to
choose for clean
air.
Let's beat

Besides from earth being deserted and absent from any living creature, a capsule opens to reveal a...green monster.? He appears to have somehow survived the end of the world, could it be...The last planet's hope?

At the trash island,
Pacific Ocean

EVERY DAY, I WROTE IN A SECRET DIARY THAT I KEPT. THEY WOULD THROW IT AWAY IF THEY EVER FOUND OUT.

I SPENT THE DAYS IN CONFINEMENT, OCCASIONALLY BEING TAKEN TO PAINFUL TORTURES THAT THEY CALLED 'EXPERIMENTS'.

I WOULD BE PUT TO SLEEP IN A TUBE OF GREEN LIQUID.

A WEIGHT WAS PUT ON MY SHOULDERS.

AND I DIDN'T KNOW WHAT.
